

# It's Easy Being Green: Budget-Friendly Safety- Conscious Chemistry Labs for the Secondary Science Classroom of Today

Middle/High School Physical Science and Chemistry Teachers, you are invited to join us, as the Department of Chemistry and Physics at Belmont University announces its **9<sup>th</sup> professional development summer workshop.**

Build a light detector and explore the efficacy of UV blocking products. Expand both qualitative and quantitative understanding of density and weighted averages. Join us in *Dive into Chemistry with Some Summer "Light" Readings and Floating Fun.*

## Why Register?

There is **no registration fee.**

Perform green chemistry labs, with an emphasis on preparation, student safety and chemical disposal.

Receive a printed copy of both instructor and student versions of the labs taught at the workshop – including background information, lab procedures and analysis questions.

## Event and Registration Information

The workshop will run from 9:00 AM to 3:30 PM Wednesday, June 11, 2025.

Lunch will be available.

Registration ends Wednesday, May 28, 2025.

Register under [Upcoming Events](#) at <https://sites.google.com/view/its-easy-being-green-pd/home>

Check back for information about our 2<sup>nd</sup> annual It's Easy Being Green... half-day workshop: Spring 2026. Topics TBD.
