# Conference Invitation:

On behalf of the Scientific Committee, it is our great pleasure to invite you to join us at the **2nd World Summit on Renewable Energy & Green Chemistry**, taking place on **November 24-25, 2025**, in **Prague, Czech Republic**.

This year's theme, "**Powering a Sustainable Future: Innovations in Renewable Energy & Green Chemistry**," highlights cutting-edge research and transformative innovations shaping a greener and more sustainable world.

This multidisciplinary summit brings together leading researchers, academics, industry professionals, and young scientists from across the globe to exchange knowledge, foster collaborations, and explore the latest advancements in Renewable Energy and Green Chemistry.

The scientific program will feature **plenary sessions, keynote talks, special lectures, seminars, symposiums, oral and poster presentations, interactive workshops, and panel discussions**. Experts from academia and industry will share their insights on the most recent innovations and practical applications in the field.

Join us in **Prague, Czech Republic**, where science, innovation, and sustainability converge for two days of engaging discussions and networking opportunities. We look forward to welcoming you to this exciting event!

Warm regards,  
**Organizing Committee**

- Best Poster Competition and Young Researcher Competition
- Opportunity to participate as a Student Delegates
- Publish your research in International Journal
- The Career Guidance Workshops to the Graduates, Doctorates and Post-Doctoral Fellows

# Conference Sessions

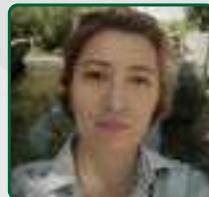

- Alternate Fuels and Sustainable Energy Sources
- Applications of Green Chemistry
- Artificial Intelligence in Green Chemistry and Renewable Energy
- Bio-based and Renewable Materials
- Biodiversity
- Biofuels, Bioenergy and Sustainable Nuclear Energy
- Biopolymer and Bioplastics
- Bioremediation and Biodegradation
- Carbon Capture, Utilization and Storage (CCUS)
- Chemical Applications in Producing Oil and Gas
- Circular Economy and Sustainable Practices
- Climate Change and Global warming
- Combustion Engines & Electrical Vehicles
- Development and Utilization of Biomass Energy
- Eco-Friendly Polymers and Materials
- Ecosystems Assessment
- Green Building Materials and Energy-saving Buildings
- Green Catalysis and Advanced Technologies
- Green Chemistry Innovations
- Hybrid Renewable Energy Approaches
- Solar Energy Technologies
- Storage Technology
- Sustainable Agriculture and Energy
- Sustainable and Renewable Energy
- Turbines and Generators
- Waste Reduction, Capture and Recycling
- Waste-to-Energy and Biorefineries
- Wind and Hydropower Developments

# About Prague, Czech Republic

Prague, the capital of the Czech Republic, is a city of breathtaking beauty and rich history. Situated on the Vltava River, it is often called the “City of a Hundred Spires” due to its stunning skyline filled with Gothic churches and Baroque domes. The city’s history dates back over a thousand years, making it one of Europe’s most well-preserved and enchanting destinations.

One of Prague’s most famous landmarks is Prague Castle, the largest ancient castle in the world, which houses the magnificent St. Vitus Cathedral. The Charles Bridge, built in the 14th century, connects the Old Town with Lesser Town and is a popular spot for tourists and artists. The Old Town Square is another highlight, featuring the Astronomical Clock, which has been delighting visitors since 1410 with its intricate hourly show.

Prague’s architecture is a fascinating blend of medieval, Renaissance, Baroque, and Art Nouveau styles. The Jewish Quarter, home to some of Europe’s oldest synagogues, and the modern Dancing House, designed by Frank Gehry, showcase the city’s architectural diversity.

"Thank u for the opportunity for me to present my paper at your conference and meet such wonderful people from around da world

**Laxmi Devi, Social Services Department**  
**Govt. Of Sharjah, UAE**

Dear Organizers,

This conference brought together important researchers with topical and very interesting presentations.

Firstly, presentations addressed a series of topics of global interest regarding studies about different food products (e.g. cow's milk, wheat bread, etc.), enzymes, fertilizers and current global issues (e.g. food alternatives, food security, etc.). Secondly, the conference organization was at a high level. The support from conference organizers was permanently available and all the requests were resolved in the shortest possible time.

Congratulations for all! I want to thank you for all of your efforts and for giving us - the participants - a very good opportunity to share our research and to interact with each other. I hope that I will be available to be able to physically participate in the next conference!

**Dimitrie Stoica**  
**Dunarea De Jos University of Galati, Romania**

It is my pleasure to write testimonial for the event organised by inovine conferences, the event was well planned and executed. The selection of speakers was meticulously planned and executed. All most all the speakers were delivered wonderful briefings about their area of expertise. I have enjoyed the event. Thank you for opportunity and support. Thanking you inovine once again.
